

LIMITED TIME PROMOTIONAL OFFER

Esquire Innovations Kicks-Off iCreate and iRedline Promotional Campaigns *Limited time replacement campaign features 50% off standard license fees*

Temecula, CA – March 20th, 2006 - Esquire Innovations, Inc. (Esquire), a leading provider of Microsoft Office integration software services and applications for the legal market, has announced an aggressive software promotion for its flagship iCreate and iRedline products. Until June 30, 2006, iCreate will be offered to all firms who use an alternative macro and template solution for 50% off the license price; the same discount applies to all firms using alternative redlining products when they purchase iRedline.

iCreate, a leader among template and macro applications, has earned favor for its enhancement of native Word, reliability, ease of use, and full complement of features suitable for the legal environment. Out of the box, iCreate provides a wide variety of templates for Microsoft Word, Excel and PowerPoint, and integrates with popular contact management software and document management systems. With iCreate, you can efficiently and reliably apply and modify styles and multi-level paragraph numbering.

Top Five Reasons To Switch to iCreate:

- Save 50% off the regular license price (10 user license minimum)
- iCreate is less expensive and quicker to implement
- iCreate is easier to manage and administer
- iCreate is certified for MS Office 2003
- iCreate has an open source code

iRedline , an easy to use document comparison tool, is fully-integrated with Microsoft Word, and highly skilled at handling tracked changes. It enables a user to compare documents stored on local or network drives, or that are accessed from document management systems including Interwoven, Hummingbird, GroupWise and WORLDX

products. iRedline expands the functionality of redline documents created in Microsoft Word or from Workshare's DeltaView. Reports and Change Lists can be generated to enhance and summarize the redlined document. Navigation buttons and Accept/Reject buttons improve the ease of using DeltaView documents in Word. Also available is the ability to convert a DeltaView document to a tracked changes document.

Top Five Reasons To Switch to iRedline:

- Save 50% off the regular license price (10 user license minimum)
- iRedline is certified for MS Office 2003 and will be upgraded to future versions of MS Office
- iRedline is simply a redlining tool that works within MS Word – not a separate application
- iRedline will redline Excel documents
- iRedline will accept and reject changes in a Deltaview
